A **Kasiga library** is a collection of sources of information and similar resources, made accessible to a defined community for reference or borrowing. It provides physical or digital access to material. Our school library has an excellent collection of books, periodicals, newspaper and acts as a support and inspiration to the learning community of the school.

During the library class we do many activities such as Information Literacy, learning vocabulary, storytelling, book review, book jacket designing, book discussion, visiting book fair and many more. I like our school library.
